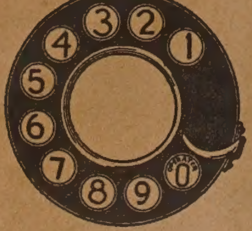
How to Use the Dial Telephone



On all calls, remove the receiver carefully from the hook and *listen for the dial tone before starting to dial a number. The dial tone is a steady humming sound heard in the telephone receiver* indicating that the line is ready for you to dial.

How to Dial a Number

When you hear the dial tone, keep the receiver off the hook and dial each figure of the telephone number, as listed in the telephone directory, consecutively in the order given. For example, if you are calling 3-4567, proceed as follows:

1. Place your finger in the opening over the figure 3.
2. Turn the dial around until your finger strikes the finger stop.
3. Remove your finger and without touching the dial allow it to return to its normal position.
4. Proceed in the same way to dial the other figures 4, 5, 6 and 7.
5. If only four figures are given in the number, as 4567, proceed the same as above, dialing all four figures consecutively.

If your finger slips, or you make a mistake in dialing, hang up the receiver at once, wait a few seconds and dial again.

Before starting to dial a second call, always hang up your receiver for a few seconds in order to clear the previous connection.

RINGING AND BUSY SIGNALS

Within a few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burr-rr-ing sound, indicating that the bell of the called line is ringing, or the busy signal, a rapid buzz-buzz-buzz, indicating that the called line is busy.

If you do not hear either of these signals within half a minute, hang up the receiver, wait a few seconds and make another attempt.

When for any reason you do not get the number called (for example, the called line is busy or does not answer) you will get quicker service if you hang up the receiver and call later at intervals, instead of immediately dialing the "Operator" for assistance.

OBTAINING ASSISTANCE FROM "OPERATOR" IN EMERGENCIES

If the lights are out, or you need assistance from the Operator in emergencies, you may secure an operator by simply placing your finger in the opening in the dial through which the word "Operator" is seen, and turning the dial around to the finger stop and releasing it.

COIN BOX TELEPHONES, OR PAY STATIONS

Instructions covering operation of coin box telephones are mounted on each coin box station.

CALLS FROM A PARTY LINE OR FROM A LINE WITH AN EXTENSION TELEPHONE

Always make sure that the line is not in use. If you do not hear the dial tone, ask if the line is being held by someone else on the line. If no response is received, hang up the receiver for a few seconds and make another attempt.

Listen on the line while dialing, and if you hear another party come in on the line, or hear successive clicks in the receiver, it indicates that some one else on the line is trying to dial. Inform him that the line is in use and ask him to hang up his receiver. When he does so, hang up your own receiver for a few seconds and then remove it and dial the complete number again.

To dial another party on your line, it is necessary to dial a special code number instead of the number listed in the telephone directory. If you wish to know who else is on your line, this information may be secured by dialing 114. If you know the listed names and numbers of others on your line, then proceed as follows:

1. If you are a two-party subscriber, it is only necessary to dial code number 1191.
2. If you are a four-party subscriber, dial 114, Repair Service, and give your telephone number as well as the telephone number of the party desired on your line. You will be given the proper code number to dial. Hang up your receiver for a few seconds, then remove it, and dial this code number.

Always after you have dialed the proper code number hang up your receiver. Your bell, as well as that of the party you dialed, will ring at brief intervals until the called party answers. When your bell stops ringing, remove your receiver and talk to the party answering.

If your bell does not stop ringing in from one to two minutes, it indicates that there is no one to answer the called telephone. You should then stop your bell and clear the connection by removing your receiver for a few seconds and then replacing it.

HOW TO CALL COUNTY SUBSCRIBERS

To secure a county number from a dial telephone, dial "116" and when the operator answers ask for the number desired as listed in the directory.

How to Place Out-of-Town Calls

Station-to-Station and Person-to-Person Services Are Explained Below for Your Convenience in Placing Out-of-Town Calls

STATION-TO-STATION CALLS

(From One Telephone to Another)

A station-to-station call is one on which you ask to be connected with a certain telephone in some distant place, but not with a particular person at that telephone.

A call filed for a private branch exchange extension telephone or a hotel room takes the person-to-person classification.

To place a station-to-station call, give the operator—

First—The name of the place you are calling.

Second—The telephone number you are calling (if known), otherwise, the name and address of the called telephone. For example: John Doe's Residence—425 Main Street.

Third—Your own number when the operator asks for it.

A five-minute connection is allowed before "overtime" charges begin if the initial period rate is 25 cents or less. A three-minute connection is allowed before "overtime" charges begin if the initial period rate is in excess of 25 cents.

FEATURES OF STATION-TO-STATION CALLS

1. The rate on a station-to-station call is less than on a person-to-person call.
2. It is completed more quickly.
3. Station-to-station calls, other than collect calls, are not subject to a report charge.
4. The rate is further reduced every night from 7:00 P. M. to 4:30 A. M., and all day Sunday, if the initial day station-to-station rate exceeds 35 cents. The time of day at the originating point when conversation starts determines whether the day or night rate applies.
5. Charges begin when the called telephone is answered, provided the calling party is holding the line.
6. Charges may be reversed without any change in rate when the rate is 25 cents or more. A slight additional charge is made when the initial rate is less than 25 cents.

PERSON-TO-PERSON CALLS

(From One Person to Another)

A person-to-person call is one on which you desire to talk to a particular person, a private branch exchange extension telephone, or a hotel room. While the rate on a person-to-person call is higher than the rate on a station-to-station call, the rate on a person-to-person call is reduced every night from 7:00 P. M. to 4:30 A. M. and all day Sunday if the initial day rate exceeds 50 cents.

To place a person-to-person call, give the operator:

First—The name of the place you are calling.

Second—The name and telephone number of the person you are calling. If you do not know the number of the telephone, give the name and address under which it is listed. Example: Mr. John Doe at 2470 or Mr. John Doe at John Doe's residence—425 Main Street.

Third—Your own number when the operator asks for it.

A three-minute conversation is allowed before "overtime" charges begin.

If the called telephone is reached but the call cannot be completed because the person desired is not available and cannot be reached elsewhere, a nominal report charge is made to compensate the Telephone Company for the work done on the call.

COLLECT CALLS

If the charges on the call you are placing are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "collect" call. The charges, if accepted at the distant telephone, will be billed to that telephone. If the charges are not accepted at the distant telephone and the call is not completed, you will be billed with the report charge.

For further information regarding classes of service and rates—call "Long Distance."

It Is Surprising How Little It Costs

Use Long Distance for Out-of-Town Business and Social Affairs

There are two general classes of Long Distance calls, Station-to-Station and Person-to-Person. Rates for Station-to-Station calls are lower than rates for Person-to-Person calls. Station-to-Station and Person-to-Person rates are further reduced every night from 7:00 P. M. to 4:30 A. M. and all day Sunday. Person-to-Person Service includes Appointment and Messenger calls, (except Messenger Fees).

The rates below are for the initial period which is 5 minutes on Station-to-Station calls where the rate is 25 cents or less. Where the rate is more than 25 cents the initial period is 3 minutes on all classes of calls. On each call for which the charge is from $.50 to $.99, the federal tax is $.10; where the charge is from $1.00 to $1.99, the tax is $.15; where the charge is $2.00 or more, the tax is $.20.

If you can give the telephone number of the distant station, the call can be handled more promptly. A special Long Distance Directory for listing numbers frequently called will be furnished, without charge, by calling the Business Office. Additional rates and other information may be obtained by calling Long Distance.

Overseas Telephone Service

Telephone service is available from your telephone to many foreign points, for which rates are shown below, and is also available to any point in Canada and Cuba and to the important cities in Mexico. Calls may be placed to these points by merely calling Long Distance. Collect calls to foreign points other than Canada and Cuba are not accepted.

Ship to shore telephone service (to ships at sea) is also available to the steamships shown below while within range of the American shore. The rates are also shown. Collect calls are not accepted on ship to shore service.

Overseas Rates from Greensboro, N. C.

Rules and Regulations Applying to All Subscribers Contracts

CLASSIFICATION OF AREAS AS THE BASIS FOR FURNISHING TELEPHONE SERVICE

Economical operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that the property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Telephone Company therefore does not undertake to furnish any desired class of service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by public necessity as distinguished from personal desire, except where protection is afforded.

The general plan for furnishing telephone service is authorized in the General Exchange Tariff is based on a classification of areas by types for the determination of the classes of service available and for the application of rates.

TERM PERIOD OF CONTRACT

The Company's contracts covering the furnishing of telephone service are ordinarily for initial term periods of one month. Under some special conditions involving unusual installation costs or involving the installation of special equipment, contracts may be required for longer initial term periods.

The Telephone Company's obligation to furnish telephone service is dependent upon its ability to procure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits.

CONSTRUCTION AND INSTALLATION CHARGES

The charges and regulations specified in the Company's General Exchange Tariff apply in connection with all classes of service, equipment or facilities furnished by the Telephone Company.

No charge is made for providing new pole line construction on public highways, when the subscriber is located within the base rate area.

No charge is made for providing and maintaining new pole line construction along public highways outside the base rate area, when such pole lines are to be used in serving subscribers in general.

Except as provided above, when an applicant for service is located outside of the base rate area in territory where new pole line construction is required and the revenue is insufficient to insure a fair return on the necessary investment, all poles must be provided at the expense of the subscriber in one of the following methods as the applicant may elect:

The subscriber may pay the Telephone Company $10.00 for each pole provided except that when poles of long lengths are required to clear trees, railroad crossings, rivers or other natural barriers, or when a special type of pole line construction, underground or submarine cable construction is required, additional charges, based on costs incurred, may be applied. Ownership of such poles is vested in the Telephone Company. Maintenance of poles and circuits is at the expense of the Telephone Company.

The subscriber at his own expense may furnish the portion of pole line and circuit from his location to an agreed upon point of connection with the Telephone Company's system. The subscriber is required to maintain or bear the expense of maintaining his portion of the pole line and circuit and also to bear the expense of installing and maintaining the station equipment, except that when the station is brought to the Company's central office for repairs, no labor expense incurred for such repairs is charged to the subscriber. The subscriber is charged extra exchange line mileage charges for that portion of the Telephone Company's circuit outside of the base rate area. Ownership of the portion of pole line and circuit provided by the subscriber is vested in the subscriber. Ownership of the station equipment is vested in the Telephone Company.

Poles on private property to be used in serving an individual subscriber may be furnished by the subscriber at the subscriber's expense or furnished by the Telephone Company at a cost to the subscriber of $10.00 for each pole. Ownership and maintenance of such poles on private property is vested in the subscriber.

No charge is made for furnishing and maintaining poles on private property when such poles are to be used to carry circuits serving subscribers in general. In such cases, ownership of poles on private property is vested in the Telephone Company.

Whenever it becomes necessary to replace poles on private property, the new poles are furnished only in accordance with the arrangements specified above.

When a specified type of construction is desired by a subscriber, as for example, when underground connections are desired in places where aerial drop wires are regularly used to reach subscriber's premises or where the individual requirements of a subscriber make the installation unusually expensive, the subscriber is required to bear the cost of such special construction or installation.

CONNECTION CHARGES AND CHARGES FOR MOVES AND CHANGES

A schedule of fixed charges is established covering the connection of a subscriber's station with the exchange of the Company, and covering the charges for moves and changes. These schedules of charges are published in detail in this directory.

UNAUTHORIZED USE OF THE TELEPHONE

Telephone equipment and facilities are furnished for the use of the subscriber, employees, agents or representatives of the subscriber or members of the subscribers' domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended to joint users.

All equipment furnished by the Telephone Company shall remain the property of the Company. Such equipment shall not be used for any toll or consideration to be paid by any other person than the subscriber, nor for performing any part of the work of transmitting, delivering or collecting any message, where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Company.

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Telephone Company, except upon the written consent of the Company.

UNAUTHORIZED ATTACHMENTS

The telephone equipment, apparatus and lines furnished shall be carefully used and no instrument, appliance or device, of any kind, not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines. In case any instrument, apparatus or device of any kind other than that furnished by the Telephone Company is attached to or connected with any part of the Company's property, the Telephone Company reserves the right to remove such instruments, apparatus or device and to suspend or discontinue service without any claim on the part of the subscriber.

No binder, holder or auxiliary covers shall be used in connection with any telephone directory furnished by the Telephone Company.

CHANGES OF CALL NUMBERS

The subscriber has no property right in the telephone number or any right to continuance of service through any certain central office and the Telephone Company may change the telephone number or the central office designation whenever it deems it desirable in the conduct of its business.

PARTY LINE SERVICE

When party line service is furnished, the Telephone Company may in consideration of the rate at which service is furnished, establish and furnish service to one other subscriber in the case of two-party line service, and other subscribers in the case of multi-party (more than two-party) line service. The Telephone Company reserves the right to cancel any two-party line or multi-party line contract, upon thirty days' notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of others connected with the same line.

All ordinary expense of maintenance and repairs, unless otherwise specified in the General Exchange Tariff or the Local Exchange Tariffs, is borne by the Telephone Company. The subscriber is billed the actual cost of each telephone instrument or piece of apparatus injured or destroyed otherwise than by unavoidable accident.

TERMS OF PAYMENT

The subscriber shall pay monthly in advance or on demand all charges for exchange service and equipment and shall pay on demand all charges for toll service. The subscriber assumes responsibility for all charges for exchange service and toll messages originating at

(Continued on next page)

Rules and Regulations Applying to All Subscribers Contracts

(Continued from Preceding Page)

the subscriber's station, and for toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called.

All charges due by the subscriber are payable by the subscriber at the Telephone Company's Commercial Office or at any other agency duly authorized to receive such payment. If objection in writing is not received by the Telephone Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.

In the event of abandonment of the station, the non-payment of any sum due or any other violation by the subscriber of the Telephone Company's rules and regulations applying to subscribers' contracts or to the furnishing of service, the Company may without notice, either (a) suspend service until all violations have ceased, or (b) terminate the subscriber's contract without suspension of service or (c) following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises. When service has been suspended for non-payment of charges, restoration of service is made upon payment of charges due, and in addition a restoration charge of $1.00.

When instruments have been removed for non-payment, the contract is considered to have been terminated. Reinstallation of service may be made only upon the execution of a new contract.

UNINTERRUPTED SERVICE NOT GUARANTEED

In view of the possibility of errors and difficulties in the transmission of messages by telephone and the impossibility of fixing in all cases the causes thereof, the subscriber assumes all risks connected with the service, as the Telephone Company cannot guarantee uninterrupted working of its lines and instruments. In case service is interrupted otherwise than by the negligence or wilful act of the subscriber, an allowance is made, computed on the basis of the minimum monthly rate for such of the telephone service equipment and facilities furnished as are rendered useless or inoperative. Such allowance covers the period the interruption continues after notice in writing is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

For the purpose of inspecting, repairing or removing any part of the Telephone Company's equipment, apparatus and lines on the subscriber's premises, the Company's employees shall have access thereto at any reasonable hour.

(N. C.)

No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises, resulting from the placing of the Company's instruments, apparatus and associated wiring on such premises, or by the removal thereof, when such defacement or damage is not the result of negligence on the part of the Company or its employees.

The Telephone Company shall not be liable for damages or statutory penalties in any case where a claim is not presented in writing within sixty days after the alleged delinquency occurs.

When suitable arrangements can be made, lines of other companies may be used in conjunction with the Telephone Company's lines in establishing wire connection to points not reached by the Telephone Company's lines. In establishing connections with the lines of other companies the Telephone Company will not be responsible or liable for any action of the connecting company.

The Telephone Company will not transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connection. Employees of the Telephone Company are forbidden to accept either oral or written messages to be transmitted over the lines of the Company.

PUBLIC PAY STATION TELEPHONES

Public pay station telephones are located at various points for the convenience of telephone subscribers and the general public. Instruction cards are displayed with each public pay station telephone, explaining the operation, and patrons should observe and follow these instructions when making calls. To send a telegram from a dial public coin box telephone, dial "Operator" and ask for "Postal Telegraph" or "Western Union."

TELEGRAMS BY TELEPHONE

Telegrams by Telephone—Telegrams may be transmitted to and received from telegraph offices by telephone. To send a telegram or cablegram, call by name or dial the number given in the directory for the telegraph company desired. By arrangement with the Postal Telegraph-Cable Company and Western Union Telegraph Company any telephone subscriber may have charges for messages received or sent by either of these Companies charged to his telephone and collected with his telephone bill.

Charges for Connections and Moves and Changes

Experience and careful investigation of the entire subject has demonstrated the fact that certain connection charges covering to some extent the average cost of the initial expense of establishing service for new subscribers and of furnishing additional facilities to old subscribers should be paid by such subscribers and should not be borne by the entire body of telephone users. Therefore, a uniform schedule has been prepared which embodies rates that should not retard telephone development in any section and will place upon subscribers responsible therefor a portion of the costs incident to such connections, leaving the balance as a charge on the business generally. This schedule applies as follows:

CONNECTION CHARGES

These charges are applicable when initial service is installed or when service is transferred from one premises to another.

1. Individual or Party Line Service each main station $2.50
2. Private Branch Exchange trunks, each $2.50
3. Extension stations and private branch exchange stations: Four schedules of connection charges are applicable, based on the total number of company-owned stations connected with the exchange. Schedule 1 applies in exchanges having from 1 to 2,500 stations, Schedule 2 applies in exchanges having from 2,501 to 10,000 stations, Schedule 3 applies in exchanges from 10,001 to 30,000 stations, and Schedule 4 applies in exchanges having more than 30,000 stations.

SCHEDULES

	1	2	3	4
Business	$1.50	$1.50	$1.75	$2.00
Residence	1.00	1.00	1.25	1.25

N. C.

4. Where service is established by the use of instrumentalities already in place on the applicant's premises and no change is made in the type or location of such instrumentalities $1.00

CHARGES FOR MOVES AND CHANGES

The charges for moves and changes in equipment are as follows:

1. Moving a main station telephone set from one location to another on same premises, the term "same premises" is to be interpreted to mean a portion of a building owned, leased, or rented and occupied by the subscriber either in the conduct of his business or as a residence $1.50
2. Moving an extension or private branch exchange station from one location to another on same premises $1.00
3. Moving other equipment or wiring from one location to another on the same premises, a charge based on the cost of labor and material.
4. Change in type or style of telephone set $1.00
5. Other changes in equipment or wiring, a charge based on the cost of labor and material.

OUT-OF-TOWN NUMBERS

NAME	CITY	TELEPHONE NUMBER

Save Money on your Out-of-Town Calls

You can make a substantial saving on your out-of-town calls by using Day, Night and Sunday Station-to-Station Service and Night and Sunday Person-to-Person Service.

The same saving which you have made and still can make on Station-to-Station Calls from 7:00 P. M. to 4:30 A. M. can now be made on Station-to-Station Calls all day Sunday, if the initial day rate exceeds 35 cents.

Furthermore, reduced rates are also now in effect on all Person-to-Person Calls every night from 7:00 P. M. to 4:30 A. M. and all day Sunday, if the initial day rate exceeds 50 cents.

These new reduced rate periods for Night and Sunday Calls will make long distance more useful to more people in more ways.

Use
Long Distance
Freely.

HOW MUCH CAN YOU SAY IN 3 MINUTES?

FOR EXAMPLE---suppose Husband in a distant city calls Wife at home, like this:

He: *"Hello, darling."*

She: *"Hello, George. I'm surely glad to hear your voice. How are you getting on with the 'big deal'?"*

He: *"Great. It looks like success in capital letters, and I think the deal will be closed tomorrow."*

She: *"That's fine, dear. But then, I knew you'd do it. Are you staying at the Governor Hotel?"*

He: *"Yes, and my air-conditioned room is very comfortable. How are the kids? Is Junior's cold better?"*

She: *"Junior's feeling fine now, and Betty is thrilled over a new red swim suit. When are you coming home?"*

He: *"I'll leave here tomorrow evening, but if my plans have to be changed, I'll call you."*

She: *"All right. Wait, Betty and Junior want to say 'hello' if we have time."*

Of course, Betty and Junior will have time to say "hello" to dad, for although 120 words have been spoken — many a question and answer conveyed — about FOUR times as many words can be said in an average three-minute telephone conversation.

The pleasure you will get from talking with a friend or relative in another city—the profit you can add to your business—will far outweigh the small cost of a long distance telephone call. Ask the "Long Distance" operator about the call you want to make. The low cost will please you.

A PLEDGE FROM REICH

Families of Greensboro and vicinity have entrusted their funeral arrangements to us for almost half a century. In return for this confidence we have spent much time and large sums of money in providing our patrons with funeral services of the finest possible character.

Our reputation for conducting services in a sympathetic and reverent manner is one of our most prized possessions. Therefore we pledge that every funeral service through Reich, even at the minimum charge, will be as beautiful and comforting as we can make it.

AMERICAN TELEPHONE & TELEGRAPH CO.
INCORPORATED

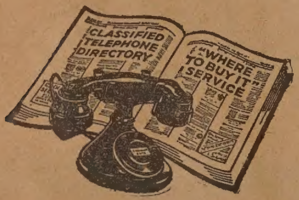
CLASSIFIED TELEPHONE DIRECTORY
"WHERE TO BUY IT" SERVICE

"WHERE TO BUY IT"

What People Have Told Us About How They Use the CLASSIFIED TELEPHONE DIRECTORY

* Surveys of usage of Classified Directories in 33 Cities in the Southeast revealed the following facts:

- 10,069 Residences and 3,498 Businesses were interviewed.
- 10,123 Women and 3,444 Men were consulted.
- 90% stated that they use the Yellow Pages.
- 72% proved it by citing business classifications they had referred to.
- 24,964 classifications were cited.



- "I use the 'Yellow Pages' for nearly everything. I call the beauty shop, coal company, drug store, and many other business firms."
- "Last year we remodeled our home and I selected the contractors from the Classified Telephone Directory."
- "We certainly do use the 'Yellow Pages' and would be lost without them. It is the first place we look for washing machine repairs, cleaners, upholsterers, nearby grocers, and many others."
- "When we moved here three years ago the Classified Telephone Directory was a wonderful help in finding business houses and individuals to deal with. That was our first experience and we have been using it ever since."
- "I find it much easier to find the telephone number of a business place in the 'Yellow Pages' of the telephone book."
- "We wanted an invalid chair for a short time but didn't feel we could afford to buy one. The Classified Telephone Directory showed us where we could rent one."

Facts ABOUT GREENSBORO

AREA—17 square miles.

POPULATION—Corporate limits, 73,321 (estimate).

MANUFACTURING—148 industrial plants.

MERCHANDISING — 740 outlets serving 500,000 people.

Some Ways In Which The Classified Yellow Pages Can Help You

Radio Service

Batteries

Plumbers

- You are looking for a radio repair shop or beauty shop that has been recommended to you, but you have forgotten the exact name of the firm. Look in the Yellow Pages.
- You are a newcomer in the neighborhood and want to call a nearby drug store for quick service. Look in the Yellow Pages.
- Battery trouble develops. You want to try a new battery which you have seen advertised but do not know where to find it. Look in the Yellow Pages.
- You plan to install a stoker and are considering various types and makes. Look in the Yellow Pages.
- You call some plumber occasionally and due to the unusual spelling of the name or for other reasons it cannot be remembered. Look in the Yellow Pages.
- You want to send an expensive garment to a reliable laundry where you can be assured of first class work. Look in the Yellow Pages.
- You are going away and you want to have something valuable stored during your absence with a firm that can give you the necessary protection. Look in the Yellow Pages.
- You want your refrigerator or automobile serviced by an authorized dealer, but do not know his name. Look in the Yellow Pages.

Classified Telephone Directory

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general classification without cost. The Telephone Company assumes no responsibility or liability for errors or omissions occurring in the Classified Telephone Directory. Errors or omissions will be corrected if reported by letter to the Company.

All subscribers (both residence and business) are listed alphabetically on the preceding white pages. The following pages (yellow) list only business subscribers.

WHERE CAN I BUY IT?
I'LL TELL YOU RIGHT AWAY
CLASSIFIED TELEPHONE DIRECTORY

These "yellow pages" know the answers. They tell you who are the authorized dealers for many of the advertised brands you want.

Just turn to the classification of the desired product—as in the example below, "Refrigerators—Electric." There you will see the trade mark and local representatives of the particular brand.

Save time. Avoid substitutes. Use the Classified.

WHEN you call . . . and call . . . and the line's busy!

And your wife . . . when she finally answers . . . says that one of the "other parties" must have been talking.

Perhaps you need a single-line telephone* at home.

**Call the Telephone Company business office for details.*

Communication Services
TO FIT YOUR PARTICULAR NEEDS

We have a solution for your communication problems, whether it be in your business or your home. Many time saving and convenient facilities offered for your consideration are shown below:

SECRETARIAL EQUIPMENT for providing a means whereby an attendant may answer incoming calls on a number of lines when called parties are absent.
PORTABLE TELEPHONES for guest rooms, sick rooms and locations where permanently connected telephones are not required.
TELETYPEWRITER SERVICE for instantaneous communication of typewritten messages between offices in the same building, in the same city or in different parts of the country.
SIGNALLING SYSTEMS for summoning members of the organization to their nearest telephone in stores, factories, warehouses, etc., by means of loud bells, gongs, lamps and code calling systems.
AMPLIFIER EQUIPPED TELEPHONES as an aid to those who have difficulty in hearing. Includes five separate stages of amplification.
INTERIOR TELEPHONE SYSTEMS AND WIRING PLANS for intercommunication between different parts of the office, home or plant. Simple switches permitting privacy and pick-up, holding and transfer of calls.
EXTENSION TELEPHONES in another part of the office or home save time and steps and afford privacy.

A representative will gladly discuss with you your own particular communication problems.

Look it up in the "Yellow Pages"

Who sells those advertised products you want? Where are the nearest authorized dealers?

You'll find the information quickly and easily in these very pages.

Just turn to the desired classifications and there you will see many a trade-mark as in the example above.

Yes, it's a time-saver and a trouble-saver, as you'll agree.

The Classified tells "Where to Buy" that advertised brand

You can save time and trouble through this reliable service

Depend on the "yellow pages" when you want to find the nearest authorized dealers for many advertised products.

More and more manufacturers are offering this convenient service to the public. They want you to be able to get what you want when you want it.

At the left is shown an example of many you will see in these pages. The method is simple: just refer to the classification desired, and under it find the particular brand.

Every Telephone Worker is a Service Salesman

You, no doubt, know some telephone people. They may be your neighbors, your friends or acquaintances. You meet them on the street, in the stores or at social affairs. They are friendly individuals just like yourself.

Every one of these telephone people wants to help you in the selection of the kind of telephone service that will fit your particular needs. They will gladly help you solve any problems or adjust any difficulties.

If you wish to have new or enlarged telephone service, just tell any telephone employee of your acquaintance. They will be glad to suggest the type of service that best suits your needs and will see that it is installed at the earliest possible date. If you do not know an employee, the Business Office will be glad to take your order.

●

Southern Bell Telephone and Telegraph Company
(Incorporated)

119-8

Southern Bell Telephone & Telegraph Co.
(INCORPORATED)

C. R. CRAVEN, Dist. Mgr., Greensboro, N. C.

"NO STAIRWAY RUNNING FOR ME—

WE HAVE AN *Extension* TELEPHONE UPSTAIRS NOW"

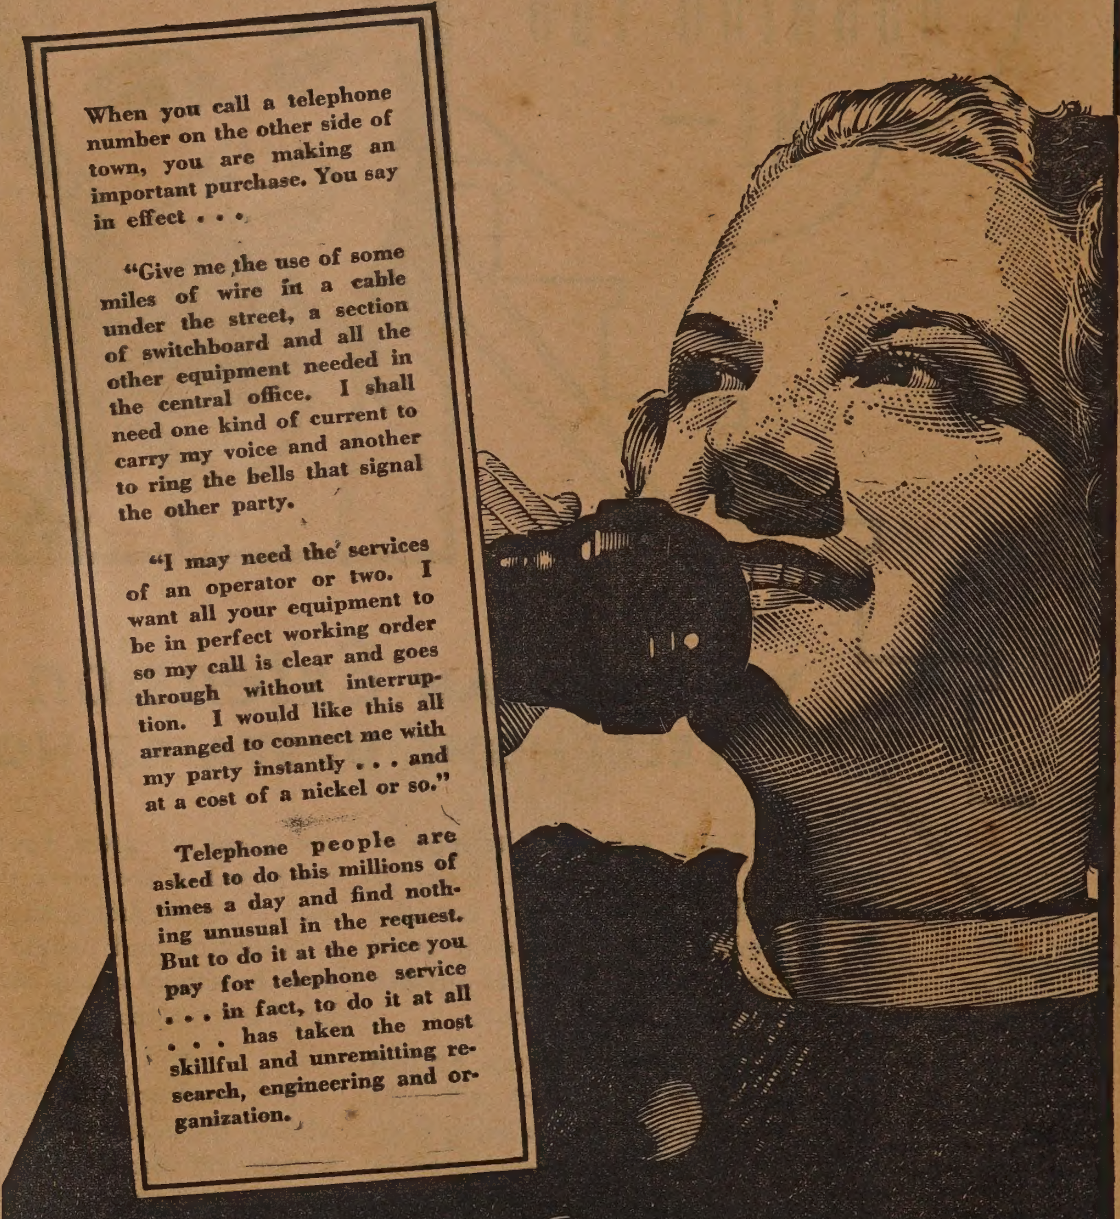
WITH extension telephones now costing so little, it really doesn't pay to continue climbing stairs or trotting from one part of the house to another to answer the telephone.

The addition of one or two extension telephones will add tremendously to the living comfort of your home and provide greater protection. For example, think of the advantage of an extension by your bed—no getting up in the dark to answer the telephone after you've retired, and in the event of sickness or other emergency, what a protection and delight to be able to simply reach out your hand for the telephone.

* * * *

You need not continue to do without the added comfort, protection and convenience that an extension telephone affords. You can have an extension installed at once by simply calling the Telephone Business Office.

"I'd like to buy a TELEPHONE CALL"



When you call a telephone number on the other side of town, you are making an important purchase. You say in effect . . .

"Give me the use of some miles of wire in a cable under the street, a section of switchboard and all the other equipment needed in the central office. I shall need one kind of current to carry my voice and another to ring the bells that signal the other party.

"I may need the services of an operator or two. I want all your equipment to be in perfect working order so my call is clear and goes through without interruption. I would like this all arranged to connect me with my party instantly . . . and at a cost of a nickel or so."

Telephone people are asked to do this millions of times a day and find nothing unusual in the request. But to do it at the price you pay for telephone service . . . in fact, to do it at all . . . has taken the most skillful and unremitting research, engineering and organization.

● In the Bell System, the American Telephone and Telegraph Company is the parent company, and operates the long distance lines connecting the 24 regional Bell companies. Bell Laboratories carries on the research work; Western Electric manufactures, purchases, and distributes. ● Without this specialized organization back of the men and women of the Southern Bell, telephone service might be possible. But it could not be service as uniformly good, as quietly accurate, as far reaching, and as inexpensive as the service you know today.

WINSTON-SALEM, N. C., SUBSCRIBERS

ALPHABETICAL LISTINGS

Employes of this Company are forbidden to accept either oral or written telephone messages
to be transmitted by an employe of this Company over the lines of this Company.

Look it up in the "Yellow Pages"

Who sells those advertised products you want? Where are the nearest authorized dealers?

You'll find the information quickly and easily in these very pages.

Just turn to the desired classifications and there you will see many a trade-mark as in the example above.

Yes, it's a time-saver and a trouble-saver, as you'll agree.

coffee
bread
flour
milk
eggs

WHEN YOU'RE TOO BUSY
TO GO OUT . . .

Let THE TELEPHONE

Bring the Stores to You!

When you're too busy to go out . . . when it's raining . . . when you're tired . . . when you are entertaining guests — or whenever you can't GO to the stores, telephone your order. Tell the stores to deliver what you want. You can depend on them to give you the same careful service you get when you go in person.

THE CLASSIFIED DIRECTORY TELLS ***"Where to Buy"***

"I'd like to buy a TELEPHONE CALL"

When you call a telephone number on the other side of town, you are making an important purchase. You say in effect . . .

"Give me the use of some miles of wire in a cable under the street, a section of switchboard and all the other equipment needed in the central office. I shall need one kind of current to carry my voice and another to ring the bells that signal the other party.

"I may need the services of an operator or two. I want all your equipment to be in perfect working order so my call is clear and goes through without interruption. I would like this all arranged to connect me with my party instantly . . . and at a cost of a nickel or so."

Telephone people are asked to do this millions of times a day and find nothing unusual in the request. But to do it at the price you pay for telephone service . . . in fact, to do it at all . . . has taken the most skillful and unremitting research, engineering and organization.

● In the Bell System, the American Telephone and Telegraph Company is the parent company, and operates the long distance lines connecting the 24 regional Bell companies. Bell Laboratories carries on the research work; Western Electric manufactures, purchases, and distributes. ● Without this specialized organization back of the men and women of the Southern Bell, telephone service might be possible. But it could not be service as uniformly good, as quietly accurate, as far reaching, and as inexpensive as the service you know today.
